§ Less than 100 shares. *a* Ex-rights. *b* Ex-dividend and rights. *c* Trust Co. certificates. *d* Anaconda Mining now quoted per cent.
NOTE.—On March 31 the Stock Exchange began quoting mining shares having a par value of over $10 on a per cent basis instead of dollars per share. Mining shares with a par value of less than $10 are still quoted in the old way, that is, per share. *e* Ex-stock dividend.
f 1st instalment paid. *g* 2d instalment paid. *h* 50% paid. *i* 3d instalment paid. *j* 4th instalment paid.

BOSTON STOCK EXCHANGE.

A very elaborate and comprehensive report of the dealings on the Boston Stock Exchange is now given in the CHRONICLE each week. We therefore discontinue our monthly record.

GENERAL QUOTATIONS

—OF—

BONDS AND STOCKS.

1. In the following twenty-eight pages of tables quotations are given for all securities listed on any Stock Exchange in the United States; also for all leading unlisted and inactive securities for which we have been able to obtain reliable prices.

2. Quotations from all Stock Exchanges are as near as possible for the *last day of December*. Of course the coupon if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.

3. Bond prices marked thus (§) indicate that the purchaser must pay accrued interest *in addition to the price given*. The method of quoting on the New York Stock Exchange is to quote the prices flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.

4. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.; "M.," for mortgage; "g.," for gold; "g'd.," for guaranteed; "end.," for endorsed; "cons.," for consolidated; "conv.," for convertible; "s. f.," for sinking fund; "l. g.," for land grant: "op." for optional.

7. The black-faced type in the letters showing the interest periods indicates in each case the *month* when the bonds mature.

☞ We no longer affix a mark to prices quoted flat, but only to those which require payment of accrued interest in addition to the price. Designating mark in this instance is (§).

‡ Sale price. † This price is per share, not per cent. x Ex-dividend.

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (*).

The figures in the column "*to net*" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

* Flat price. ¶ Houston bonds are quoted on 4·75 basis bid and 4·25 basis asked. ‡ Sale price.

BANKS AND TRUST COMPANIES.

Quotations for the stocks of banks and trust companies are given per share, not per cent, with the exception of New York City, Brooklyn and Canadian bank stocks.

Prices marked thus (*) indicate sales. The dagger (†) prefixed to a price indicates that the figures show the book value.

Where names of the banks are printed in italics, fuller returns may be found in the advertising columns in the front part of the paper.

WILLIAM B. DANA COMPANY, PUBLISHERS,
PINE ST., CORNER OF PEARL ST., NEW YORK.

REVIEW OF JANUARY.

Rather quiet conditions developed in financial circles during January. On the Stock Exchange the year opened with the stock market buoyant and with the volume of transactions large. Very soon, however, business dwindled. Later, prices began to sag, with occasional periods of weakness. Altogether it became evident that it would not be possible to maintain a sustained speculation for a rise at this time.

The money market showed ease, and as far as the monetary situation is a factor in speculation this ought to have been a favorable feature. On the other hand the attitude displayed in and out of Congress towards corporations and corporate interests, the agitation against "trusts" and the various bills under discussion in Congress for anti-trust legislation, naturally occasioned somewhat of a feeling of disquietude, exciting fears of some move that might retard the country's industrial development. The attitude of labor, too, has been viewed with much concern. All the indications encourage the idea that the wage-earners will follow up the advantages already gained by making new claims, either for shorter hours or further increases in wages, or both, or for other concessions—all of which would add to the cost of manufacturing and producing goods. In the railroad world the higher cost of materials and supplies and the effects of the recent increases in wages are also being closely watched. As far as the gross earnings of our transportion lines are concerned, steady increases are still the rule, but the important point of course is how far these additions to the receipts are going to be offset by augmented expenses. It may even happen that the latter will overbalance the gains in receipts. Added to all this, Venezuelan matters at times presented phases suggestive of possible new complications. More particularly was this the case when the news came of the shelling of Fort San Carlos by the German warships and again when the allied powers—Great Britain, Germany and Italy—insisted on preferential treatment of their claims against Venezuela over those of other countries. Until definite light on these points can be obtained, the outlook for the future obviously cannot be regarded as wholly clear.

In the anthracite coal situation there were two important developments during the month. The first was the action of the independent operators in insisting that they must be allowed to sell coal for what they could get, instead of accepting the $5 a ton

which the companies were charging. The contracts between the companies and the operators had been loosely drawn, so the companies were forced to accede to this demand. The independent operators then held their coal for high figures, asking $10 and $12 a ton. Gradually, however, they were obliged to reduce their prices. Retail dealers were not inclined to purchase much coal at extreme figures, and as a result much of the coal of the independent operators remained in cars on which demurrage charges had to be paid. To add to the discomfiture of the operators, the coal companies raised these demurrage charges from $1 00 to $2 00 a day per car. The effect was that towards the close of January the independent operators generally were accepting $6 a ton for their coal. The other development of the month was the action of Congress in repealing the duty on coal. Anthracite has been permanently placed on the free list, while in the case of bituminous coal the duty is remitted for a year.

In the railroad world there were many events of importance. The Pennsylvania Railroad announced that at the annual meeting in March shareholders would be asked to authorize a large increase in the stock and debt of the company. Then, also, the Pennsylvania Railroad negotiated a $35,000,000 loan at 4½ per cent for six months, with the privilege of renewal for another six months. It was stated that this loan is entirely for the purpose of providing temporarily for the new construction work necessary east and west of Pittsburg, with the view to relieving the freight congestion on the lines of the system. With the same purpose in mind the company the latter part of the month also announced that its 20-hour trains between Chicago and New York would be discontinued for the time being. It was intimated, too, that other passenger trains might be taken off. The removal of these trains it was felt would enable the company to facilitate very greatly the movement of freight. Another event of the month was the turning over to the Vanderbilt interests of a portion of the holdings of the Reading Company previously acquired by the Pennsylvania Railroad through the Baltimore & Ohio. The Lake Shore & Michigan Southern was the company selected to take over these holdings for the Vanderbilts. To finance the transaction the Lake Shore negotiated a $25,000,000 loan at 5 per cent.

In the money market great ease resulted, as usually happens during January. Call loans at the close were made in some instances as low as 2½ to 3 per cent. The money holdings of the Clearing House banks rose from $228,472,600 on January 3 to $260,825,500 January 31, and surplus reserves increased from $10,193,850 to $27,880,775. In the time money branch of the market the fact that the Pennsylvania had been able to borrow at 4½ per cent induced other borrowers to insist that upon equal collateral they should be entitled to like favorable terms.

Good 4 to 6 months	6⅛	5¾	5¾	5¾	5 -5⅛

The course of the stock market has already been outlined above. There was much speculative activity at the beginning of the month, but extreme dulness at the close, with prices inclined to sag. The undertone, however, remained firm, and there were sharp upward movements in special stocks. Erie was one of the strong features on rumors of buying for control and suggestions that now that an abiding place had been found for Reading, Erie might be similarly disposed of. St. Louis & San Francisco also moved sharply upward. Delaware & Hudson towards the end of the month likewise displayed marked strength and there were various other special properties, like General Electric, that were distinguished for large advances. Pennsylvania Railroad stock was adversely affected by the announcements of contemplated new issues. Amalgamated Copper was strong among the industrial issues, but no well-defined reasons for this appeared. Some of the iron and steel shares also made substantial advances. In this case the large earnings shown by such companies as the Pressed Steel Car Co. (which increased its common stock dividend from a basis of 4 per cent per annum to 5 per cent) were the moving cause.

VOLUME OF BUSINESS ON THE STOCK EXCHANGE.

It has been feared that with the return of ease in money, there would be an immediate resumption of gold exports. But while exchange rates did advance, the rise was not sufficient to bring rates up to the gold-export point. The latter part of the month a plentiful supply of bankers' bills was in evidence, supposed to be in connection with the Pennsylvania Railroad's 35-million-dollar loan, part of which it is understood was placed abroad.

NEW YORK STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1902. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

☞ *For foot notes to tables see last page of Bonds and last page of Stocks.*

§ Less than 100 shares. *a* Ex-rights. *b* Ex-dividend and rights. *c* Trust Co. certificates. *d* Anaconda Mining now quoted per cent.
Note.—On March 31, 1902, the Stock Exchange began quoting mining shares having a par value of over $10 on a per cent basis instead of dollars per share. Mining shares with a par value of less than $10 are still quoted in the old way, that is, per share. *e* Ex-stock dividend.
f 1st instalment paid. *g* 2d instalment paid. *h* 50% paid. *i* 3d instalment paid. *j* 4th instalment paid.

BOSTON STOCK EXCHANGE.

A very elaborate and comprehensive report of the dealings on the Boston Stock Exchange is now given in the Chronicle each week. We therefore discontinue our monthly record.

GENERAL QUOTATIONS

—OF—

BONDS AND STOCKS.

1. In the following twenty-eight pages of tables quotations are given for all securities listed on any Stock Exchange in the United States; also for all leading unlisted and inactive securities for which we have been able to obtain reliable prices.

2. Quotations from all Stock Exchanges are as near as possible for the *last day of January*. Of course the coupon if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.

3. Bond prices marked thus (§) indicate that the purchaser must pay accrued interest *in addition to the price given* The method of quoting on the New York Stock Exchange is to quote the prices flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.

4. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.; "M.," for mortgage; "g.," for gold; "g'd.," for guaranteed; "end.," for endorsed; "cons.," for consolidated; "conv.," for convertible; "s. f.," for sinking fund; "l. g.," for land grant: "op." for optional.

7. The black-faced type in the letters showing the interest periods indicates in each case the *month* when the bonds mature.

☞ We no longer affix a mark to prices quoted flat, but only to those which require payment of accrued interest in addition to the price. Designating mark in this instance is (§).

‡ Sale price. † This price is per share, not per cent. x Ex-dividend.

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (*).

The figures in the column "*to net*" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

Bonds.	Bid.	Ask.	To Net.

* Flat price. ‡ Sale price.

BANKS AND TRUST COMPANIES.

Quotations for the stocks of banks and trust companies are given per share, not per cent, with the exception of New York City, Brooklyn and Canadian bank stocks.

Prices marked thus (*) indicate sales. The dagger (†) prefixed to a price indicates that the figures show the book value.

Where names of the banks are printed in italics, fuller returns may be found in the advertising columns in the front part of the paper.

PINE ST., CORNER OF PEARL ST., NEW YORK.

REVIEW OF FEBRUARY.

Legislation played an unusually prominent part in affairs during February. By this we mean that "trust" and financial questions occupied a large share of the attention of Congress and attracted a great deal of notice from the public. A number of bills relating to, or intended to affect, the so-called "trusts" became laws. Among these may be mentioned first of all the bill creating a new Department of Commerce and Labor, the Secretary of which is made a member of the President's Cabinet. This new department embraces a Bureau of Corporations, with a Commissioner who is given a certain jurisdiction over corporations. Mr. George B. Cortelyou, previously private secretary to both President Roosevelt and President McKinley, was made the first executive head of the new department, and Mr. James R Garfield was made the first Commissioner of the Bureau of Corporations. The duties of the new Secretary and the new Commissioner of Corporations were outlined in our article on the Financial Situation in the issue of February 14.

Then a bill was passed whose purpose it is to permit suits brought under the Sherman Anti-Trust Act by the Government to be advanced on the court calendar. The Attorney-General took prompt advantage of this new enactment, and on the 28th sent to the Clerk of the U. S. Circuit Court for the Eighth Circuit the formal certificate to secure precedence and an early argument in the case of the Government against the Northern Securities Company. Then a third measure passed the gauntlet of both houses, namely the Act known as Senator Elkins's Rebate bill, and which is directed against the granting of rebates in transportation—in this sense being more in the nature of an amendment to the Inter-State Commerce Law. A much more drastic measure than any of these, the Littlefield bill, passed the House but made no headway in the Senate, as the leaders had evidently completed their program of trust legislation.

A financial measure which was watched with great anxiety was Senator Aldrich's bill for regulating the system of Government bank deposits. The leading features of this bill were that it extended the list of bonds which might be used as security for Government deposits in the national banks. Banks were to be allowed to use either United States bonds or State bonds or certain classes of municipal bonds and also the first mortgage bonds of rail-

road companies which had paid dividends of not less than 4 per cent per annum regularly on their stock for a period of ten years. The bill also contained a proviso requiring the payment of interest on Government deposits. Up to the last it was hoped that this necessary piece of financial legislation for the relief of business interests from the recurring periods of stringency might go through, but the measure never got out of the Senate by reason of obstructive tactics on the part of a faction in the Senate.

One of the events of the month was the adoption by the Clearing House Association, by a unanimous vote, of resolutions requiring trust companies to hold cash reserves against their deposits if they would continue to clear through members of the Association. The resolutions provide that every non-member institution (not a bank required by law to maintain a specified reserve), on and after June 1 1903 must keep a cash reserve equal to 5 per cent of its deposits; that on and after February 1 1904 such cash reserve must be not less than 7½ per cent of the deposits, and, beginning with June 1 1904, such cash reserve shall be such percentage as shall from time to time be fixed by the Clearing House Committee, but not less than 10 nor more than 15 per cent. Still another event was the appointment by the President of the American Bankers' Association of a committee to deal with the question of the reform of our currency.

The Anthracite Strike Commission appointed by President Roosevelt last October heard the closing arguments in the case before it, but had announced no conclusions by the end of the month. Judge Grosscup, in the United States Circuit Court, rendered a decision against the so-called beef trust overruling the demurrer of the packers and granting a temporary injunction. The New Jersey Court of Errors and Appeals handed down a unanimous decision in the Hodge case against the United States Steel Corporation, sustaining the stock conversion scheme and new bond issue in every particular. The death of Conrad N. Jordan, United States Assistant Treasurer at this point, occurred on Thursday, February 26, and the news was everywhere received with expressions of regret.

The stock market did not show much strength during February, and in fact was inclined to weakness. The Venezuela controversy was satisfactorily adjusted the early part of the month, but this had no stimulating effect. There were various depressing circumstances tending to keep the market in a weak and unsettled condition. A sharp attack on Metropolitan Street Railway stock and also on the shares of the Metropolitan Securities Company following false rumors regarding the properties, was one of the happenings. Anxiety regarding the fate of the Aldrich Bill in the Senate also had an adverse effect, although this became a particularly depressing influence during the early days of March, when it was seen that the bill was doomed to failure. Certain classes of stocks were exceptions to the rule of decline for special reasons. The Wabash shares and debenture class B bonds belong in this category, both having enjoyed sharp advances on rumors that the company would be taken into the Missouri Pacific system, and also on suggestions of one kind or another of a possible settlement of differences with the Pennsylvania Railroad. St. Louis & San Francisco shares likewise moved up sharply, the stimulating cause in that case being pretty definite statements that the St. Louis & San Francisco was to be absorbed by the Rock Island.

January 1 to Feb. 28.. ...	80,034,200	105,033,500	108,137,850	102,278,980

The feature of the money market was the distinctly firm tone for money on time. Quotations for money on call remained low, even while rates on time were quoted higher, until towards the very close when even call-money rates rose to a higher level. There was a sharp expansion in the loans of the Clearing-House institutions, due it was claimed in large part to the paying off of foreign loans. The total of these Clearing-House loans increased from $904,510,700 on January 31 to $950,156,300 on February 28. Surplus reserves were reduced from $27,880,775 to $5,951,900.

The foreign exchange market was strong and higher, and sterling hovered in the neighborhood of the gold export point. No engagements for shipment to Europe occurred, however, and the only export was $750,000 sent to Argentina on the 26th. At the very close, the advance in money rates weakened exchange. The Bank of Germany reduced its discount rate from 4 to 3½ per cent on the 11th.

NEW YORK STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1903. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed "*Prices about January 2, 1903*," were made on that date, except those in italics, which are the nearest in January, 1903. The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

☞ *For foot notes to tables see last page of Bonds and last page of Stocks.*

§ Less than 100 shares. *a* Ex-rights. *b* Ex-dividend and rights. *c* Trust Co. certificates. *d* Anaconda Mining now quoted per cent.

NOTE.—On March 31, 1902, the Stock Exchange began quoting mining shares having a par value of over $10 on a per cent basis instead of dollars per share. Mining shares with a par value of less than $10 are still quoted in the old way, that is, per share. *e* Ex-stock dividend. *f* 1st instalment paid. *g* 2d instalment paid. *h* 50% paid. *i* 3d instalment paid. *j* 4th instalment paid.

BOSTON STOCK EXCHANGE.

A very elaborate and comprehensive report of the dealings on the Boston Stock Exchange is now given in the CHRONICLE each week. We therefore discontinue our monthly record.

GENERAL QUOTATIONS

—OF—

BONDS AND STOCKS.

1. In the following twenty-eight pages of tables quotations are given for all securities listed on any Stock Exchange in the United States; also for all leading unlisted and inactive securities for which we have been able to obtain reliable prices

2. Quotations from all Stock Exchanges are as near as possible for the *last day of February*. Of course the coupon if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.

3. Bond prices marked thus (§) indicate that the purchaser must pay accrued interest *in addition to the price given* The method of quoting on the New York Stock Exchange is to quote the prices flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.

4. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.; "M.," for mortgage; "g.," for gold; "g'd.," for guaranteed; "end.," for endorsed; "cons.," for consolidated; "conv.," for convertible; "s. f.," for sinking fund; "l. g.," for land grant: "op." for optional

7. The black-faced type in the letters showing the interest periods indicates in each case the *month* when the bonds mature.

☞ We no longer affix a mark to prices quoted flat, but only to those which require payment of accrued interest in addition to the price. Designating mark in this instance is (§).

‡ Sale price. † This price is per share, not per cent. x Ex-dividend.

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (*).

The figures in the column "*to net*" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

* Flat price. ‡ Sale price.

BANKS AND TRUST COMPANIES.

Quotations for the stocks of banks and trust companies are given per share, not per cent, with the exception of New York City, Brooklyn and Canadian bank stocks.

Prices marked thus (*) indicate sales. The dagger (†) prefixed to a price indicates that the figures show the book value.

Where names of the banks are printed in italics, fuller returns may be found in the advertising columns in the front part of the paper.

WILLIAM B. DANA COMPANY, PUBLISHERS,
PINE ST., CORNER OF PEARL ST., NEW YORK.

REVIEW OF MARCH.

Severe liquidation was again experienced on the Stock Exchange. Many different circumstances tended to promote this liquidation. Congress adjourned on the 4th without having taken action on Senator Aldrich's financial bill, which was intended to add to the scope of the powers of the Secretary of the Treasury for preventing money accumulations in Treasury vaults, and operators on the Stock Exchange took a decidedly unfavorable view of the effects of the failure of this measure. At the same time labor troubles continued decidedly prominent and current railroad returns showed that higher wages and enhanced cost of material and supplies were adding very materially to the cost of operating the railroads. It was urged, too, that financial interests were carrying considerable lines of new securities which they had as yet been unable to float. The large borrowings by some leading corporations for the moment also had an adverse effect, although these borrowings followed in considerable measure from attempts to provide additional means for handling the enormous amount of traffic offering for shipment.

So far as underlying conditions controlling values are concerned, there was no occasion whatever for distrust, the only unfavorable feature being the labor situation. Some rumors of embarrassment in mercantile circles were circulated, but it subsequently appeared that the only basis for the same was the fact that the firm of Dresser & Co. found itself involved in difficulties by reason of special causes. Trade as a whole remained sound and of large volume.

Some special circumstances likewise operated against special stocks. Among these may be mentioned the differences that developed between a pool in Southern Pacific stock engineered by Mr. James R. Keene and the controlling interests in this property held by the Union Pacific. A determined attack was made on Metropolitan Street Railway stock, and rumors of unfavorable developments in this property were circulated with great persistency. It finally appeared that a former official of the Third Avenue Railroad Company had discovered, as he thought, discrepancies in the reports of the company and had brought these discrepancies to the attention of certain people usually identified with Wall Street operations.

Though the Street was taking an unfavorable view of the effect of the failure of the Aldrich bill in

Congress, the Secretary of the Treasury soon made it apparent that he had no intention of letting Treasury operations produce serious embarrassment in the money market. On the 26th he issued a circular giving to the holders of U. S. 4s of 1907 and U. S. 3s of 1918 another opportunity to convert their bonds into the new 2 per cent consols. In other words, he resumed refunding operations, which were suspended at the close of 1900. The favorable aspect of the matter was that to the extent to which the offer is availed of the Secretary will be obliged to make payment in cash for the premium allowed on the old bonds, thus releasing a corresponding amount of cash from Treasury vaults. The U. S. Senate, which had been convened in extra session, approved the treaty with the Republic of Colombia, bringing correspondingly nearer the time when the Treasury will be obliged to pay out 50 million dollars in settlement for the purchase of the canal.

The Anthracite Coal Commission rendered its report and made its awards. The miners were given an increase of 10 per cent in wages, but the sliding scale as a basis for future changes was adopted as recommended by the operators, and emphatic condemnation was expressed of the persecution to which non-union men had been subjected, besides which the Commission declined to recognize the Mine Workers' Union. The report of the Commission was without influence, but from many different directions came evidences that the labor situation still constitutes a very troublesome feature in affairs. The New Haven Railroad was threatened with a strike. There was also talk of a strike on the Manhattan Elevated Railroad, and much attention was given to the disgraceful features attending the trolley strike at Waterbury. The American Bridge Company, one of the constituent companies of the United States Steel Corporation, also had trouble with some of its men.

The Pennsylvania Railroad shareholders sanctioned the increase in the authorized amount of stock of the company from $251,701,000 to $400,000,000. The management thereupon issued a notice giving stockholders the right to subscribe at 120 for new shares to the extent of 33⅓ per cent of their present holdings. It was calculated that this would add 70 to 80 million dollars to the outstanding amount of stock. Payments, however, for the new shares are extended over a long period of time.

With occasional interruptions, the decline in the stock market may be said to have continued throughout the month. The fall in prices amounted to from 10 to 15 points, even in the case of some of the better class of properties, New York Central and Pennsylvania being especially prominent. In the great majority of cases the lowest prices of the year were reached. Practically no support whatever was accorded to the market, leading interests evidently favoring the liquidation as a means for placing stock values (which by many had been considered unduly high) on a sounder basis. Some recovery occurred on the last day of the month on the publication of an interview with Mr. J. P. Morgan taking a bright view of the future.

January 1 to March 31....	120,093,750	162,090,850	163,342,600	174,170,580

The foreign exchange market sharply declined the early part of the month, under the influence of higher money rates. There was a pressure of loan bills and the decline was greatest in long sterling, this class of bills being directly affected by a liberal supply of 60 and 90-day drafts representing foreign loans. About the 10th of the month a sharp recovery in exchange occurred. The reason assigned was that there was a considerable inquiry for remittance for the settlement through arbitrage operations of loans maturing in Berlin. There was at this time, also, a demand for exchange for future delivery, apparently in expectation of higher rates in May and June, and it was suggested that much of this inquiry might be due to a desire to make provision against an expected scarcity of bills as the result of possible absorptions for remittance in connection with the 50-million-dollar payments to be made for the Panama Canal. Towards the close of the month exchange rates fell off, influenced in part by offerings of loan bills encouraged by the relatively firmer rates for money here than abroad, and especially on the Continent. Considerable selling, however, of stocks by arbitrage houses for London account was also in evidence, and on the 25th a shipment of $500,000 gold coin to Buenos Ayres was announced.

The money market showed more or less tension throughout the month, but money on call did not get above 8 per cent until the last of the month. On the 31st some loans were made at 15 per cent. Surplus reserves of the Clearing House banks were reduced to $666,975 March 7th, but recovered to $6,280,900 March 28th, the improvement, however, being effected mainly through a contraction in loans with a corresponding shrinkage in deposits. Loans March 28th were only $904,599,200, against $950,156,300 February 28th.

NEW YORK STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1903. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed "*Prices about January 2, 1903*," were made on that date, except those in italics, which are the nearest in January, 1903 The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

☞ *For foot notes to tables see last page of Bonds and last page of Stocks.*

‡ Less than 100 shares. *a* Ex-rights. *b* Ex-dividend and rights. *c* Trust Co. certificates. *d* Anaconda Mining now quoted per cent.
NOTE.—On March 31, 1902, the Stock Exchange began quoting mining shares having a par value of over $10 on a per cent basis instead of dollars per share. Mining shares with a par value of less than $10 are still quoted in the old way, that is, per share. *e* Ex-stock dividend.
f 1st instalment paid. *g* 2d instalment paid. *h* 50% paid. *i* 3d instalment paid. *j* 4th instalment paid.

BOSTON STOCK EXCHANGE.

A very elaborate and comprehensive report of the dealings on the Boston Stock Exchange is now given in the CHRONICLE each week. We therefore discontinue our monthly record.

GENERAL QUOTATIONS

—OF—

BONDS AND STOCKS.

1. In the following twenty-eight pages of tables quotations are given for all securities listed on any Stock Exchange in the United States; also for all leading unlisted and inactive securities for which we have been able to obtain reliable prices.

2. Quotations from all Stock Exchanges are as near as possible for the *last day of March*. Of course the coupon if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.

3. Bond prices marked thus (§) indicate that the purchaser must pay accrued interest *in addition to the price given*. The method of quoting on the New York Stock Exchange is to quote the prices flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.

4. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.; "M.," for mortgage; "g.," for gold; "g'd.," for guaranteed; "end.," for endorsed; "cons.," for consolidated; "conv.," for convertible; "s. f.," for sinking fund; "l. g.," for land grant: "op." for optional.

7. The black-faced type in the letters showing the interest periods indicates in each case the *month* when the bonds mature.

☞ **We no longer affix a mark to prices quoted flat, but only to those which require payment of accrued interest in addition to the price. Designating mark in this instance is (§).**
